Objectives	Regional meets are designed to provide a networking platform for the IIC institutions and prospective IIC institutions in the region to celebrate their contribution towards institutionalizing and streamlining their campus innovation ecosystems and leading the innovation movement in HEIs.
Benefits	The regional meetings provided an excellent opportunity for institutions to strengthen inter-institutional partnerships with other HEIs and ecosystem enablers such as incubators, angel investors, VCs, knowledge agencies, national resource agencies, and central and state government agencies involved in the promotion of innovation, IP, and startups in HEIs. During these regional meets, IIC institutions demonstrated their ecosystem achievements, alongside innovators and startups to showcase their innovations and received mentoring support and awards.
