The Craft of Research
• **Writing, Drafting and Revising**
• Planning and drafting: start early; build a working plan; create working drafts.
• Organization: introductions, conclusions, structure of sections; order of ideas should lead the reader logically.
• Incorporation of sources: how to quote, paraphrase, summarise fairly; integrate sources so they support your argument rather than overwhelm it.
• Style: writing clearly (old before new, simple to complex), sentence structure, flow, coherence.
• Revision: Big-picture first (argument, structure), then sections and paragraphs, then sentences, then surface details (grammar, spelling). Also letting drafts "cool" and then revising.
